English Section

Mitochondria pathogenesis and dysfunction in Alzheimer's disease. R.N.S Tasakis	9
Social cognition in adults: the role of cognitive control. E.I. Nazlidou et al	15
The relationships of Theory of Mind, cognitive control and memory function in Mild Cognitive Impairment: A research proposal. G. Tsentidou et al.	26
Can the mini mental state examination detect cognitive changes in childhood and aging? E. Tsantali et al.	33
Clinical developments in amyloid PET imaging. I. Iakovou	40
Correlating cognitive status with electrophysiological brain networks: an exploratory study in patients with Multiple Sclerosis. V. Papaliagkas et al.	46
Web services for Greek informal carers. A. Efthymiou et al.	51
An e-learning tool for the paid caregivers in Greece. A. Efthymiou et al.	54
The quick mild cognitive impairment screen: A new screening tool for mild cognitive impairment and early dementia. R. O'Caomh et al.	59
CSF biomarkers in the early diagnosis of Alzheimer's disease. V. T. Papaliagkas	66
Assessment of health related quality of life in elderly nursing home residents in Heraklion. A. Smyrniotaki et al.	72
The emotional brain in the classroom. E. Tigka	79
Multimodal sensing and fusion for comprehensive monitoring and feedback: the integrated Dem@Care system. A. Briassouli et al.	88
The travails of dementia policy development in a small island state: perspectives from Malta. C. Scerri	95
Psychological and physical benefits of traditional dance programs in elderly with dementia: theoretical approaches and research results. S. Douka et al.	104
Dyslipidemia and dementia. K. Tziomalos	111
The effect of mental empowerment and integrative psychotherapy in patients with dementia. G. Triantafyllou, T. Doskas	115
The importance of treating dementia through art. E. Milona, T. Doskas	120
The role of the educational games in enhancing cognitive function. M. Tourika, T. Doskas	124
Managing caregiver's burden through group counseling and psychoeducation. G. Poulimenea, T. Doskas	129
The effect of day center on life quality of dementia patients. A. Bolli, T. Doskas	136
Physical therapy in patients with dementia and healthy elderly using interactive games. P. Dimitriadou	140
Metabolomic analysis in brain research. M. I. Klapa, C.G. Vasilopoulou	143
Neuropsychological evidence of cognitive impairment in a patient with early-onset of Parkinson's disease. E. Papahristopoulou et al.	152
Nanoceria attenuate amyloid beta peptide- and zinc oxide nanoparticle-induced cytotoxicity in SH-SY5Y cells. K. San Tang, J. Sern Tan	157
Primary age-related tauopathy: part or not part of Alzheimer disease? D. Kanakis	162
The effect of Risperidone, Sertraline as monotherapy and in combination with cholinesterase inhibitors on Alzheimer Disease cognitive functioning: A randomized clinical trial. M. Melissari Tzanakaki et al.	166
Psychological disorders of caregivers of patients with dementing disorders: Increase of psychopathology and economic crisis in Greece. I. Theotoka et al.	173
A neuropsychological exploration of Juvenile Myoclonic Epilepsy. D. Bekiaridis-Moschou et al.	180
Functionality in Alzheimer's disease: clinical symptoms, measures and management. M. Tsolaki, I. Lazarou	187
Evaluation and management of speech, language, communication and eating disorders in dementias - how this can improve clinical care? - A short review. G. Nasios et al.	192
Evaluation and management of speech and language disorders in Alzheimer's dementia. M. Kambanaros et al.	201

Clinical presentation of dysphagia in the varied forms of dementia: A literature review. I.-E. Virvidaki et al.	207
Neuropsychological assessment in mild cognitive impairment and Alzheimer's disease: an overview. L. Messinis et al.	213
Arizona battery of communication disorders of dementia for evaluation of cognitive impairment in PD and early diagnosis of PDD. D. Tafiadis et al.	222
Application of the diagnostic tool EFA-4 in dementia. S. Erkotidou et al.	231
Cerebrospinal fluid alpha-Synuclein levels in patients with Parkinson Disease, multiple system atrophy and healthy controls. G.P. Paraskevas et al.	237
Comparing the latent structure of Raven's educational coloured progressive matrices among young children and older adults: A preliminary study. G. Papantoniou et al.	242
Emotion decoding from dynamic visual cues in older adult stroke patients: a preliminary study. A. Sismanidi et al.	250
Can MCI patients classified as SNAP or PART by their CSF profile be differentiated from prodromal AD patients by neuropsychological assessment? A. E. Ioannidis et al	258

Abstracts

Foreign language learning and special educational needs: A cause for anxiety. E. Tigka	262
Homocysteine and leukoencephalopathy. Correlation review. S. Matsoukas et al	262
Transcranial Direct Current Stimulation (tDCS) as a cognitive enhancement therapy in Mild Cognitive Impairment and dementia. F. Sedaghat	263
Brainbanks: How familiar are the medical students with these biobanks? I. Papagiouvanni et al.	263
A classification and comparative study of European Biobanks. A. Arampatzis	264
The involvement of aging in the development of Alzheimer's disease. A. Arampatzis	264
Measuring social cognition and cognitive control in Mild Cognitive Impairment: comparison with cognitively healthy older adults. M. Astyrakaki et al.	265
Social cognition and cognitive control in Alzheimer's Disease: examining the differences between older adults diagnosed with MCI and AD. N. Morou et al.	265
Attitudes and understandings of the grandchildren of dementia patients. E. Nikolaidou	266
Use it more and keep it alive: Longitudinal cognitive training in Mild Cognitive Impairment. E. Poptsi et al	266
Care of patient with dementia: Will or Duty. M. Eleftheriou, E. Nikolaidou	267
Social Work in the years of economic crisis. I. Tsokanari	267
Oral health and dementia during Economic Crisis. E. Gavopoulou	267
Mild Cognitive Impairment and visual problems. A. Soumpourou, K. Lysitsas	268
Mild Cognitive Impairment with behavioral problems. E. Poptsi et al	268
Is Alzheimer's Disease type 3 diabetes? V. Papaliagkas	269
Theory of Mind in frontotemporal dementia: Theoretical background and clinical implications. N. Morou, D. Moraitou	269
The added value of HD-EEG recordings in the diagnosis of Alzheimer's disease and Mild cognitive impairment. A. Tsolaki et al.	270
Event-related potentials in the diagnosis of Alzheimer's disease and Mild Cognitive Impairment: current status and future prospects. V. Papaliagkas	270
What do language abilities in Mild Cognitive Impairment indicate for cognitive abilities in aging? E. Tsantali et al.	271
The present and future of functional (SPECT) imaging in dementias. G.P. Gerasimou, A. Gotzamani-Psarrakou	271
Techniques and quantitative measurements in brain imaging with SPECT and PET. K. Badiavas	272
A review on the diagnostic utility of EEG for the diagnosis of dementia related disorders and Mild Cognitive Impairment. K. Ntovas, M. Tsolaki	272
Correlating cognitive status with electrophysiological brain networks: methodological aspects and preliminary results in healthy volunteers. V. Papaliagkas et al.	273
CSF biomarkers in every day practice. G. Paraskevas et al.	273
Theatre of the Oppressed" applied to Alzheimer's caregivers. M. Toumpalidou, M. Egkiazarova	274
Sideritis (mountain tea) and Salvia (sage) species: natural sources as potential drugs in the treatment of Alzheimer's disease. D. Lazari	274

“Effects of Ginko biloba extracts on memory. Basic studies and clinical applications. N. Pitsikas	275
Recent developments in ICT sector for people with dementia and informal caregivers in Greece. E. Margioti	275
Alzheimer’s Disease and dietary supplementation. G. C. Spatharakis	276
Olive oil: a new source of agents against Alzheimer’s disease. P. Magiatis, E. Melliou	276
Recent findings in Alzheimer’s disease and nutrition focusing on epigenetics. D. Athanasopoulos et al.	277
Organization of mental health and psycho geriatric services. E. Zampouridou et al.	277
Brain imaging biomarkers for early diagnosis of Alzheimer’s disease: MRI, functional MRI and functional connectivity MRI. S.-H. Pelidou	278
SPECT and PET approaches for early diagnosing dementia and MCI. F. Sedaghat	278
Prevalence of dementia in the oldest old. U. Lucca	279
Alzheimer’s disease and subcortical vascular disease - from baseline to six-year follow-up; report from the Gothenburg MCI study. A. Wallin	279
Examination of the factors affecting subjective well-being in elders. M. Foukaki et al.	280
Mediterranean diet and dementia: the effect of dairy consumption and red meat. E. Frouzi, A. Kafatos	280
Caregivers of elders and dementia patients residing in care units: A comparative study examining the factors affecting their well-being. A. E. Kalaitzaki, V. Pattakou-Parassiri	281
Financial capacity and dementia: To be or not to be an APOE e4 carrier? V. Giannouli, M. Tsolaki	281
Amyloid encephalopathy and financial capacity: A case study. V. Giannouli, M. Tsolaki	282
The effect of dancing in people with Parkinsonism. I. Lazarou, M. Tsolaki	282
Overview of the Dem@Care project. I. Kompatsiaris	283
Presentation of the Dem@Care lab and home pilot setup and testing and outcomes in Thessaloniki. M. Tsolaki et al.	283
The use of ICT for the assessment of pre-demented and demented patients within the Dem@care project. A. König	284
Dementia ambient care: Home-based monitoring and enablement of people with dementia. L. Hopper et al	284
Assessment and evaluation of interventions in BPSD with the help of a multiple sensor system. C. Melander et al	285
Cognitive impairment in multiple sclerosis. D. Haralampus	285
The pathophysiology of cognitive dysfunction in multiple sclerosis. D. Papadopoulos	286
Cerebral atrophy as disease progression marker in multiple sclerosis. T. Doskas	286
Alzheimer disease co-morbidities. X. Fitsioris	287
Amyloid beta-oligomers: a target for Alzheimer therapy? E. Giacobini	287
A proposed protocol for cognitive training when using robot programming tasks and tangible interfaces. S. Demetriadis et al.	288
Next steps after ASPAD. M. Tsolaki	288
Project: Innovative Neuro-biological Assessment for mild cognitive impairment due to Alzheimer’s disease and Parkinson’s disease. S. Zygouris, M. Tsolaki	289
Project: Alzheimer’s disease stem-cell treatment experimental method. S.Zygouris, M. Tsolaki	289
Exploring homeostatic value of space of institutional settings for people with dementia through an environmental analogue. K. Charras	290
Alzheimer’s disease: support for family caregivers. M.-O. Desana	290
Diabetes and dementia. F. Iliadis	291
Dementia - Financial crisis. A. Lygera	291
Managing Cognitive Impairment - Discriminations in health. A. Theochari	291
Cognitive Disorders: Criticism-Present-Perspectives-Conclusions. V. Dislian	292
Plasma metabolites as Alzheimer’s Disease biomarkers. P. Proitsi et al.	292
“Forget Me Not”: a constant struggle. M. Seleari	293
Association between elderly with Mild Cognitive Impairment and Fear of Falling. C. A. Mouzakidis	294
Categorization training for persons with Mild Cognitive Impairment. F. Constantinidou, M. Nikou	294
Dementia caregiver burden as associated with neighbors’ social capital. E.Papastavrou	295
Quality of life in healthy aging. S. Papacostas et al.	295

The level of Quality of Life of dementia caregivers and its association with depression and burden: a correlation study in Cyprus. P. Andreou	296
Impact of music intervention technique Music Care© in the context of Alzheimer's disease. S. Guetin	296
Changes in synapse in dementia: relationship to symptoms and potential therapeutic opportunities. P. Francis	297
Adverse outcomes and delirium in demented hospitalized patients. K.G. Yiannopoulou et al.	297
Use of assessment tools for cognitive and everyday functionality: need for separation of the healthy with the pathological spectrum in these areas of examination. G. Pavlidis	298
Social engagement and networking as determinants of cognitive and affective well-being in the silver years. E. Chrysochoou, A. Ypsilanti	298
Grandparenting as a protective factor against affective and cognitive decline. E. Kalyva	299
Bilingualism as a potential factor protecting against cognitive decline. A. I. Ladas et al.	299
Long term care for people with dementia- Facilities and approach of care. K. Prouskas	300
Neuroimaging methods vs. lesion studies. E. Tigka	300
The pathogenesis of dyslexia. E. Tigka	301
Do MRI volumes correlate with financial capacity? Evidence from patients with Mild Cognitive Impairment in Greece. V. Giannouli et al.	301
Association between helicobacter pylori infection, glaucoma and dementia. F.Tsolaki et al.	302
Physiopathology of the cerebral small vessel disease: the role of homocysteine. D. Dellaporta et al.	302
Synaptic dysregulation in a patient-specific human iPS-derived cellular model of Parkinson's disease. G. Kouroupi et al.	303
Using ADVF stem cells for the treatment of Alzheimer's disease. G. Koliakos	303
Collecting useless items. A dementia behavioral symptom or hoarding disorder? M. Egkiazarova et al.	304
The course of caregivers in Alzheimer Disease. E. Michi	304
Ilion municipality community study. A multi-axial approach based on the cognitive reserve theory. N. E. Degleris	305
The introduction of a short screening test for Major Neurocognitive Disorder by laypeople. The psychometric properties of a legendary story. A. Solias et al	305
Exploring the association between depression and major neurocognitive disorder. A. Solias et al.	306
High correlation between frailty variables and dementia in a cohort of older people in Crete, Greece. S. Panagiotakis et al.	306
Using novel compounds for cognitive enhancement. E.M. Tsapakis	307
Alzheimer's Disease and dietary supplementation. G. C. Spatharakis	307
The endocrinological facets of Alzheimer's disease and dementia-related disorders. K. A. Toulis et al.	307
Driving ability in patients with cognitive disorders due to neurodegenerative diseases. S. G. Papageorgiou	308
The autonomous elderly of Crete and their everyday lives: factors associated with longevity and successful aging. A. Kritikosi et al.	309
Brain research and advocacy - a European perspective. T. Hawrot	309
Neuropsychological tests. E. Poptsi	310
Atypical and potentially reversible types of dementia and cognitive dysfunctions:normal pressure hydrocephalus. F. Xepapadakos et al.	310
Limbic encephalitis - a rare treatable cause of neuropsychiatric disorders. S. Friedl, F. Xepapadakos	311
Pseudo dementia in depression and multiple myeloma with heart amyloidosis. A reversible neuro-immunologic challenge? C. Mela	311
Reminiscence as therapeutic intervention to people with dementia. A. Diamantidou et al.	312
Exploration of the link between depressive symptoms and driving performance in individuals with mild cognitive impairment. I. N. Beratis et al.	312
Tandem Walking as a predictor of driving performance in individuals with Parkinson's Disease. I. N. Beratis et al.	313
Is rapid dementia related to accelerated neuronal metabolic exhaustion? I. Ferrer	313
Biological determinants of Alzheimer disease heterogeneity: prion paradigm implications. J.G. Safar	314
Determinants for disease progression in AD. I. Zerr	314

Evidence for a CSF biomarker signature identifying a rapid progressive subphenotype of sporadic AD. J. Wiltfang	315
Creation of a multidimensional website - thematic network for a holistic health promotion. I. Galanakis et al	315
Programs of action for dementia in the Dodecanese prefecture. T. Velegraki, K. Siaga	316
Agios Nikolaos Lasithi Memorial Centre results. E.Frouzi, Z.I. Nikolaou	316
Predicting response to cerebrospinal fluid (CSF) shunting for patients with idiopathic normal pressure hydrocephalus (iNPH): Reality or Utopia? F. Sotiriou	317
Alzheimer's Disease: Strategies for disease modification with an emphasis on discovering novel molecules of natural origin possessing anti-neurodegenerative properties. A. Tsarbopoulos	317
Proteolytic clearance of alpha-synuclein in vivo: Novel targets in Parkinson's disease transmission. V. Sykioti	318
Comparing the psychometric properties of the Raven's Educational Coloured Progressive Matrices among young children and older adults: A preliminary study. E. Katsadima et al	318
Comparing the psychometric properties of the ATHINA Test among young children and older adults: A preliminary study. M. Dinou et al.	319
Comparing the psychometric properties of the Children's Category Test among young children and older adults: A preliminary study. E. Foutsitzi et al.	319
Comparing the psychometric properties of the Mini-Mental State Examination among young children and older adults: A preliminary study. E. Savvidou et al.	320
Alzheimer Association of Heraklion, Crete - Allilegii (Solidarity). I. Kortsidaki, I. Zaganas	320
Assistive and companion robots in the frame of the RAPP project. S. Reppou, G. Karagiannis	321
From loneliness to solitude: A journey to adulthood for dementia sufferers. A. Pagoropoulou	321
Elderly living in the Community or in Institutions, in Urban or Rural Areas - Comorbidity. A. Kypraki et al.	322
Elderly living in the community or in institutions, in urban or rural areas - cognitive function and Quality of Life. M.E.Mitraki et al.	322
Urban or rural areas - resilience and life satisfaction. V. Pattakou-Parassiri et al	323
Prevention and management of dementia in the current financial environment. M. Karatzikou et al.	323
Suicidal attempts and depression in Mild Cognitive Impairment. A. Diamantidou	324
Case study: Everyday functioning in mild Alzheimer's disease. M. Gialaouzidis	324
Prevention and intervention in the school community to promote brain health and the pupils' awareness on the problems of people suffering from Alzheimer disease. Support and education of the emotional state of caregivers and retraining of people with dementia by the carers. I. Kortsidaki et al.	325
Teaching and applications of memory strategies. A. Soumpourou	325
«Aging on action» - proposal for creative aging in the Ioannina Prefecture, region of Epirus, Greece. A. Velivasi et al.	326
NILVAD study: A European double-blind placebo-controlled phase III clinical trial of nilvadipine in patients with AD: Some preliminary findings. S. Nenopoulou et al.	326
PharmaCog study: Identification of biomarkers sensitive to disease progression in patients with Mild Cognitive Impairment: a two-part clinical study. Part A. -Multisite MRI acquisition - Protocol harmonization. Part B. - Identification of biomarkers sensitive to disease progression in patients with Mild Cognitive Impairment: a clinical study. K. Dalakouras et al.	327
Using a virtual reality cognitive training application for remote cognitive screening. S. Zygouris, M. Tsolaki	327
Physiotherapy program for the prevention of falls in patients with dementia. I. Velissaridi et al.	328
Death anxiety and religiosity in older adults. P. Damvopoulou et al.	328
Quality of sleep and working memory in old adults. I. Michos et al.	329
Evaluation with CD and cellular assays of new aggregation inhibitors of the β -amyloid peptide of Alzheimer's disease. B. Mavroidi et al.	329
The prognostic value of the number of cutan neurofibromas in neurofibromatosis. A. Horváth et al.	330
Trait and state anxiety in older adults with MCI. E. Zoupa et al	330
The effectiveness of mental empowerment program and psychotherapy on a patient with poor social network. G. Triantafillou et al.	331
The effectiveness of combined group intervention on cognitive and social skills of a patient with Alzheimer. G. Poulimenea et al.	331

Geriatric Anxiety Inventory. E. Poptsi et al.	332
Intervention therapy in Progressive Supranuclear Palsy. S. Kostopoulou et al.	332
Screening of dysphagia in Parkinson's Disease. G. Tegou et al.	333
Intervention program for patients with Multiple System Atrophy. K. Sardella et al.	333
Example of intervention plan on functional-motor level for improved functioning in everyday tasks (ADL) in patients with dementia and Parkinsonian symptoms. F. Zotou et al.	334
The role of integrative therapy on a patient with Alzheimer disease and cerebrovascular lesions (mixed type Dementia). M. Tourika et al.	334
Effects of selected biosynthetic cyclic peptides on A β oligomer formation and on the toxic action of A β oligomers in primary neurons. Z. Linardaki et al.	335
Can religiosity levels differ among cognitively intact, MCI and demented elders? Preliminary results. M. Tsatali et al.	335
The involvement of bacterial metabolites rhamnolipids in Alzheimer's disease. E.G. Andreadou et al.	336

Commentaries

Items of organisation of space and behavior in it: complexity, transdisciplinarity and synthesis in memory degeneration and urban environments. M. Mitropoulos	337
Good morning, Dementia! How Alzheimer Cafe became successful in Slovenia. Š. L. Zlobec	337
Next generation sequencing technologies for whole exome/genome sequencing: impact on daily clinical practice, in dementia and beyond. I. Zaganas et al.	339
